

KritiKal partners with NeuSwyft for next generation infrastructure monitoring & digital transformation solutions

KritiKal Solutions is pleased to announce its partnership with NeuSwyft to power next generation enterprise business products and solutions. Combining KSPL's expertise in IoT product development and integration architectures with NeuSwyft's in-depth Infor expertise and market reach will allow talented teams of engineers to solve mission critical challenges while using the Infor stack. The partnership is well positioned to provide product and solution innovations that can help increase productivity and scale of operations for their clients.

About NeuSwyft Software:

NeuSwyft Software is an agile provider of modern ERP integration, digital transformation and mobility solutions for enterprises. Partnering with Infor, we provide complete end to end solution by leveraging various Infor products such as Infor M3, Infor EAM, Ming.le, Infor Cloud products. For this, we work with various other external systems and solutions to enable end to end processes to enable digitally transformed enterprise.

About KritiKal Solutions:

Based out of India, KritiKal Solutions is a full product development services provider with deep domain know-how and technology expertise in engineering products for Embedded, IoT, Computer Vision, Video Analytics and high performance Software Applications. We consistently go beyond our clients' expectations by bringing together technology, talent, innovation and the highest quality standards to deliver "Creations for Tomorrow." KritiKal's customers benefit from the right mix of technology skills, industry and domain knowledge, defined processes and methodologies and a choice of engagement models.
