

## KritiKal Solutions Concludes Successful

### Participation at electronica & productonica India 2017

**Noida, Sep18, 2017:** KritiKal Solutions, a leading product engineering company in technology areas of Embedded Systems and IoT, concluded the successful participation at South Asia's and India's leading fair for electronic components, systems and applications, electronica & productonica India held at Pragati Maidan, from 14-16 September. In this biggest electronic expo, KritiKal demonstrated its wide range of smart products/solutions in collaboration with Toradex Systems, a leading global firm in ARM Embedded computing modules.

During the exhibition, KritiKal Solutions received a lot of attention from visionaries & exhibitors from countries all over the world including China, Taiwan, Japan, Germany, Singapore, Thailand, etc. In addition, the company got a chance to build potential collaborations with key people from renowned companies in different niche such as Semiconductors, Displays, Micro- and nanosystems & Sensor technology, Test and measurement, Electronic Design (ED/EDA), Passive components, Electromechanics, Power supplies, PCBs, other circuit carriers and EMS, Automotive, Wireless, Assemblies and subsystems.

KritiKal Solutions has worked with Toradex, an international brand specialized in application-ready embedded computing platform on the bulk production of NTP Clocks for its esteemed client. This marked a great achievement for KritiKal to embark on some interesting products expected in the future. Besides KritiKal has been working for defence, healthcare & automotive segments to blur the boundaries between outdated systems and innovative technology-built systems. Showcasing all these expertise, KritiKal conveyed the visitors that it is a leading embedded electronics company to provide next-gen industrial IoT & embedded solutions across disparate industry verticals.

Expressing thoughts on the trade fair participation, Mr. Siddharth Chandra, Sr. Sales Manager-Embedded & IoT at KritiKal Solutions stated that *"electronica and productonica provide us a global exposure to the electronics market and the product trends that have scope in the future. We feel proud to be the part of such a great international trade fair that has covered almost every industry where electronics can be imbibed. With this event, we are envisioning the potential collaboration with the key people we met there."*

#### **About KritiKal**

KritiKal Solutions is a technology design house specializing in Product Development, R&D and Innovation. We have partnered with over 250 clients from all over the world and helped them translate ideas into products. We have done this using our deep domain know-how and technology expertise in Computer Vision & Image

Processing (Analytics), Embedded Systems & IoT and, High-performance

Mobile, Web & Software Applications. In the last 15 years, we have contributed to 50+ Innovations/Products in domains like Automotive, Health & Wellness, Energy, Consumer Electronics, Wearables and Traffic/City Surveillance.
